

Hush-Ply 32 has been designed as an impact reducing floor panel that can be used as a structural or an overlay board. Offering an alternative to the standard chipboard finish, Hush-Ply 32 is especially suitable for areas requiring extra moisture protection, such as kitchens and bathrooms and offers an excellent surface for application of the final flooring finish, whether using ceramic tiles or wooden flooring.

ACOUSTIC PERFORMANCE

Impact $L'_{nT,w}$ dB	Airborne $D_{nT,w}$ dB	Airborne $D_{nT,w} + C_{tr}$ dB
53	58	55

Results based on Hush Ply 32 being laid over a floor structure with a suitable ceiling treatment and all flanking paths removed.

PRODUCT DATA

- Can be laid over concrete, existing timber floors or directly over joists up to 450mm centres*
- Comprises of 22mm EBP tongued and grooved plywood with 10mm Hushfelt resilient layer
- Overall Board Dimensions 2400mm x 600mm x 32mm
